

February 21, 1975

anyone from teaching driver education. But it does say if you want to teach in our public high schools you will come under the guidelines of the State Department of Education, just as if you were teaching English, or social studies, or chemistry, or any other subject which is taught in our high schools.

SPEAKER: Chair recognizes Senator Keyes.

SENATOR KEYES: Mr. Speaker, I'd like to talk to Senator Barnett if he'll come back to his seat.

SPEAKER: You may ask him a question if he yield sir.

SENATOR KEYES: Yes. Senator Barnett, I know you can hear me while you are walking back. You've got the bill LB 24. Now if this bill that we're talking about now which is going to raise the qualifications of the one that is instructing the child to drive, and put it in the State Department of Education, then is it your feeling that if we get this, then we can be able, by rules and regulations of the Department of Education make it mandatory that a child take drivers education to get a license before he's 18?

SENATOR BARNETT: Oh, I'm not certain that this would have any . . . I don't think that this would have any affect on my bill, Senator Keyes. If I understand your question correctly.

SENATOR KEYES: You understand my question correctly. This bill is going to put in the Department of Education the qualifications for drivers educator to teach drivers education. Then when you do that, then you come along and say that the Department of Education will have something to say about not issuing a drivers license to anyone under 16 or under 18 years of age, unless they have drivers education. Is that what you want to do?

SENATOR BARNETT: Well I think what this program is doing is up-dating the qualifications for the instructor which has nothing to do with mine. This now has six hours.

SENATOR KEYES: But you are putting it in the Department of Education and not a statute?

SENATOR BARNETT: Sure. You've got to have qualifications. You've got to have guidelines somewhere. I just would agree with this that this is the place to put it on.

SENATOR KEYES: That's fine. You get it there. Then you're going to come along in your bill and say that if they don't have drivers education by the time . . .

SPEAKER: We're discussing LB 18 please.

SENATOR KEYES: Well it has a relationship to this because don't think it don't. If you get this one, this next one's going to be a humdinger.

SENATOR BARNETT: It's a humdinger anyhow.
